## SKILLS

React.js, JavaScript, Python, Redux, PostgreSQL, Git, HTML5, CSS3, Flask, Node.js, Express, Heroku, AJAX

## PROJECTS

**Artsy** - *Artsy is an e-commerce clone of Etsy that focuses on the selling of art-related products*

[Live Site](#) | [Github](#)

- Designed reactive search by utilizing React-Redux to quickly render search results based on user keystrokes and display new searches to user
- Developed a custom login form modal with React component architecture that results in the ability for users to securely log in and continue viewing products without losing their place on the page.
- Designed a visually appealing UI to display product listings using CSS, resulting in a smoother and more seamless user experience.

**Social Goals** - *Social media app in which users can create life goals, and update followers throughout their journey* [Live Site](#) | [Github](#)

- Ensured user privacy through backend authentication with Express.js and React State on the frontend, allowing users to view other users' comments, but only make changes to their own comments when logged in.
- Constructed a custom navigation menu leveraging React state to allow users to hide or show the menu depending on their needs, resulting in an improved user experience.
- Designed PostgreSQL queries to retrieve user information and dynamically generate a list of posts based on who the authenticated user is currently following, resulting in a personalized user social feed.

**Remember The Juice** - *A task app that allows users to create, organize, and manage life's tasks with to-do lists* [Live Site](#) | [Github](#)

- Configured the Node backend with PostgreSQL, using the Sequelize ORM for validations to create user security and privacy.
- Integrated Local Storage, and DOM manipulation to dynamically save the user-chosen theme, resulting in the theme persisting on refresh or logout.
- Utilized AJAX to implement CRUD functionality of tasks on the frontend, resulting in responsive user management of tasks without refresh, improving the user experience.

## EXPERIENCE

**Social Services Specialist** - *Oklahoma Department of Human Services, Feb 2019 - Aug 2020*

- Determined the financial eligibility of clients to receive Oklahoma Medicaid by interviewing clients, researching and reviewing clients' financial records, and analyzing and applying state policy and law.
- Managed a caseload of 200+ clients, along with weekly new applications, by utilizing organizational and time management skills, that resulted in 90% or higher timeliness each month.
- Utilized verbal and written communication skills to explain complex state policy and regulations to clientele with varying education levels, as well as communicated effectively with government community partners.
- Utilized DHS Information Management System to confidentially manage sensitive client information, and approve, deny, or administer benefits.

**Dispensary Assistant** - *Clary Sage College, Oct 2015 - Jan 2019*

- Oversaw the distribution of student course materials, collaborated with course instructors to order the correct student materials for each class, and did monthly inventory.
- Solved course material or inventory issues that arose throughout the day by using time management and collaboration skills with students, instructors, and other staff.
- Planned and taught a short course to students on how to properly clean and sanitize products.

**Admissions Office Student Worker** - *Oral Roberts University, Aug 2014 - May 2016*

- Collaborated with other students to complete large mail projects with deadlines by folding, sealing, and delivering mail.
- Counted products and entered in data to maintain inventory records.

## EDUCATION

**App Academy** - Immersive software development course with focus on full stack web development (Fall 2020 - Feb 2021)

**Oral Roberts University** - *BS - Counseling* (Fall 2013 - May 2017)
